

The Shared Lands

The Shared Lands are a coöperative setting which has gradually taken shape as each new adventure is placed on the map, starting with the first session of the Columbia-Berkshire D&D Club back in January 2019. This imaginal world has been organically co-crafted by three DMs and 11 players. As players, you help shape the world through the actions of your characters. And if you step up to serve as a DM, we can carve out a nook as your own regional sandbox. Welcome to the Shared Lands!
